

Indotech Industrial Solutions Pvt. Ltd.

AUTOMATIC MILK COLLECTION UNIT

INTRODUCTION:

- It is web based milk collection software. It is a product of extensive efforts and interactive meetings and discussion with several co-operative milk producing societies and dairies. With the use of internet, the software can be accessed at remote locations. The system is centrally located and is able to monitor the Milk collection in all the connected dairies. The interconnection between all centers is possible through this system. This software is user friendly with high response time. Since this Software has an additional facility of SMS alert, it helps milk suppliers, societies, Co-operative societies, Milk collection centers to know their daily earning. The software is available in Multiple regional language. We can provide software in other languages as per client's requirement. Customization support will be provided.

Features of Milkindo :-

- Fully Automated System.
- Available in all regional languages.
- Desktop Based.
- SMS alert facility.
- Wide range of accounting reports.
- Reduces human efforts.
- Transparent and trustworthy system.
- Rate Card entry for changed Milk rates.

- Different security levels.
- Unlimited Users.
- All data will centrally located on web hence no fear of losing data.
- Interconnection between all centers.

ADDITIONAL FEATURES:

1. Stand alone MilkIndo with messaging using GSM modem.
2. MilkIndo with messaging through web.
