STORE MANAGEMENT SYSTEM

A screenshot of the 'STORE MANAGEMENT SYSTEM' interface. The page has a dark background with white text. At the top, it says 'STORE MANAGEMENT SYSTEM'. Below that, the title 'Employee Log in' is centered. There are three input fields: 'EMPLOYEE ID', 'USER NAME', and 'PASSWORD', each with a light blue rectangular box. A blue 'Log in' button is located at the bottom right of the form area.

INTRODUCTION:

Inventory Management is the process of a company's operational tasks to manage the inventory or stocks in its various stages, such as raw materials, semi-finished products to finished products.

The accuracy and convenience is what makes stock management software crucial to a business. Inventory management refers to the systems and strategies businesses use to ensure that they have adequate supplies of raw materials for production and finished goods for shipment to customers, while also minimizing their inventory carrying costs. Storing excess inventory is costly, because the space and financial resources invested in the goods can often be put to better use elsewhere.

Features of Inventory Management Software:-

- Material Inward/Dispatch Entry.
- Inventory Tracking and Control
- Different levels of security.
- Multi user.
- Inventory valuation
- MIS reports like Stock Status report, Asset Report and wide range of reports.
- Accurate Material Planning

- Increase Inventory Accuracy.

Scope of Store System

1. Master

- Users → Add Users(Software Handler)
- Project → Add Project
- Category → Add Product Category Type
- Part Type → Add Product Part Type
- Product Unit → Add Product Unit
- Product/ Part → Add Product

The screenshot displays the web application interface for Indotech Industrial Solutions Pvt. Ltd. The header includes the company logo, name, and tagline "Turnkey Solution Provider", along with ISO 9001:2008 certification logos. A navigation menu contains links for HOME, MASTER, STOCK TRANSACTION, REPORTS, STOCK STATUS, and Log Out.

The main content area is titled "Part Entry" and contains the following form fields:

- Part Category: Select (dropdown menu)
- Part Name: [Text Input Field]
- Part Price: 0.0 (Text Input Field)
- Part Code: [Text Input Field]
- Part Unit: Select (dropdown menu)
- Part Type: Select (dropdown menu)
- Part Description: [Text Input Field]

An "ADD" button is located below the form fields.

Below the form is the "Part List" section, which includes a search bar and a table of parts. The table shows 2 entries:

Part Code	Part Name	Part Category	Part Type	Part Unit	Part Price
Elex_100001	Coil	Electronic	Coil	Kg	1000.0
Fabr_100001	Sheet	Fabrication	Sheet	No.	120.0

Navigation controls for the table include "Showing 1 to 2 of 2 entries", "First", "Previous", "1", "Next", and "Last". A "PRINT" button is located at the bottom of the page.

2. Stock Transaction

- a. Stock In → Add Product Stock Quantity
- b. Stock Out → Issue Product Stock Quantity
